

## Meet the Psychic That Celebs Have on Speed Dial

Demi Moore, Nicole Kidman, Jennifer Aniston and Brad Pitt all have two things in common: fame, and a woman named Laura Day, author of *How to Rule the World From Your Couch*. She's a surprisingly un-woo-

woo psychic with such dead-on intuition even movie studios and Wall Street execs hire her to vet big decisions. Three Dos for harnessing your own intuition to get ahead:

**DO** tune out others. "Women spend too much time listening to everyone's judgments. We need to listen to ourselves," Day says.

**DO** keep a notebook of your thoughts. "The things that hit you on the side of your head are always the big ideas."

**DO** be realistic: You can't *always* control the future. "But honing your intuition can help you create shifts to get the future you want."

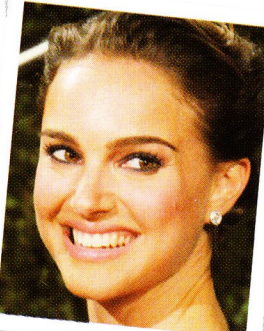

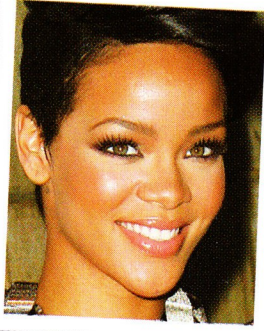

"I'm learning to use my intuition. We all have it—I'm just tuning in to it."
